

 eJournal Collections

Engineering

- A high-quality specialist portfolio of 26 journals, 16 of which are accepted in Journal Citation Reports® and 92% ranked by Scopus.
- Widely used in practice by global organizations across the aerospace, automotive, industrial and manufacturing sectors, the collection provides coverage of emerging topics including 3D printing, 4D printing, swarm optimization, autonomous vehicles and cybernetics.
- Closely connected to the industry, many titles maintain strong links to key associations and professional bodies such as European Aeronautics Science Networks (EASN), International Microelectronics Assembly and Packaging Society (IMAPS) and International Federation of Robotics (IFR).

Coverage of emerging topics

3D printing • 4D printing • **Swarm optimization** • Intelligent systems • **Cybernetics** • Aerospace engineering • **Chemical engineering** • Electrical & electronic engineering • **Computer & software engineering** • Systems & control • **Industrial engineering, design & manufacturing** • Quality control & reliability • **Materials science** • Mechanical engineering • **Mechatronics** • Robotics • **Sensors & Actuators** • Autonomous vehicles

Continuous growth

Over **21,000** articles from **26** journals by the end of 2018

Over **1,800** articles scheduled to publish in 2018

A sample of 2018 special issues

Robotic rehabilitation and assistive technologies, *International Journal of Intelligent Computing and cybernetics*

Managing 3D Printing Technologies for Manufacturing, *Rapid Prototyping Journal*

Highly used

1 million article downloads in 2016

Usage has increased **38%** in the last two years

"Industrial Robot provides the latest worldwide information covering application stories and news from our industry as well as papers with the latest developments in technology. This unique publication is the very best source of information for all those wishing to keep up to date in robotics."

Mike Wilson, President, British Automation and Robotics Association, UK

High quality, relevant research

16 titles accepted in Journal Citation Reports[®]*, including *International Journal of Numerical Methods for Heat & Fluid Flow*, which received an Impact Factor of **1.713** for 2016.

80% of eligible titles are listed in the Emerging Sources Citation Index.**

Scopus[®] **92%** of titles receive a Scopus CiteScore.***

CiteScore[™] **91%** of journals have seen an increase in citations between 2015 and 2016

Recent influential articles

3D printed bio-models for medical applications, *Rapid Prototyping Journal*, Yee Ling Yap et al, 2017

Energy efficiency hexapod walking robot for humanitarian demining, *Industrial Robot*, Hector Montes, Lisbeth Mena, Roemi Fernández and Manuel Armada, 2017

Satellite formation keeping via chaotic artificial bee colony, *Aircraft Engineering and Aerospace Technology*, Soyinka Olukunle Kolawole and Duan Haibin, 2017

Key Titles

Scopus[®]
Rapid Prototyping Journal

With an Impact Factor of 2.4 for 2016 this is a highly topical journal providing researchers with essential information on developments and applications in additive manufacturing and related technologies.

Scopus[®]
Assembly Automation

Reflecting the most interesting and strategically important research and development activities from around the world with coverage on all aspects of assembly technology and automation.

Scopus[®]
Engineering Computations

Providing broad coverage across all branches of engineering and science of the latest development and application of new solution algorithms, innovative numerical methods and/or solution techniques directed at the utilization of computational methods in engineering analysis, engineering design and practice.

What does your subscription include?

Access in perpetuity

Perpetual access to content published during your subscription period, even if you stop subscribing.

Complimentary access

Users will receive complimentary access to selected archive content for the duration of a live subscription.

A dedicated research platform

All of Emerald's content is hosted on emeraldinsight.com, providing seamless access to research.

Accessible

Supporting IP, OpenAthens and Shibboleth authentication enabling streamlined access to content.

Compliant with W3C AA guidelines making content accessible for people with disabilities.

Integrated

Hosted on an industry-leading platform, aligned to other publisher platforms supporting integration and usability.

Integration with remote customer websites through harvesting and remote search capabilities.

Discoverable

Citation management and reference linking features, including compatibility with EndNote, Reference Manager, RefWorks, ProCite, Zotero, Mendeley and BibTex.

Content is indexed in all major discovery services including Primo, Summon and EBSCO Discovery Service.

Customized

Institutional administration area provides single point access to usage reports, KBART & MARC records, subscription listings and co-branding options.

Unique user profile allows registrants to tailor research by saving favourite searches, signing up for new content and citation alerts, and bookmarking favourite publications.

About Emerald Publishing

Emerald Publishing was founded in 1967 to champion new ideas that would advance the research and practice of business and management. Today, we continue to nurture fresh thinking in applied fields where we feel we can make a real difference, now also including health and social care, education and engineering.

We publish over 300 journals, more than 2,500 books and over 1,500 case studies. Our priority is to build long-term relationships with a global community of authors, teachers and librarians who want to find, share and apply research that matters.
